Good Ground Tragedy  
Principal, Accompanied  
by His Lawyer, Leaves  
Long Island City for  
Riverhead on the 4  
o'clock Train—Word  
Sent to Official of His  
Coming.

Louis Disbrow, who is wanted to explain the death of Clarence Foster and "Dimple" Lawrence in Tiana Bay, left Long Island City on the 4 o'clock train this afternoon for Riverhead to surrender himself on the warrant for his arrest.

He was accompanied by his lawyer, Rowland Miles, who had pledged himself to give up the tragedy principal.

Before leaving Long Island City Mr. Miles called District Attorney Smith up on the long-distance telephone and advised him that Disbrow was coming to face the officials.

The warrant for Disbrow's arrest was issued last Friday by Justice Foster, of Southampton.

It was issued on testimony secured by the District Attorney from various witnesses at Good Ground.

# ROBBED HOUSE; THEN TURNED ON GAS.

Burglars Took Statuary Valued  
at \$1,000 from Clinton  
Home and Attempted to Kill  
Widow and Daughters.

Smelling gas in her sleeping-room to-day, Mrs. Catherine Clinton, a widow, awakened her three daughters, in their apartments of the old family mansion, which occupies a wide space of ground, running from Tibbetts avenue to Marion, in the Bronx, and the four started on an exploration tour.

On the lower floor they found that burglars had relieved the parlor and hall of about \$1,000 worth of statuary, and after jumping out of a window had closed it after them. But before leaving they had turned on all of the gas jets and from them the gas was going up through the house.

The matter was reported to the police of the Highbridge station. The family believes that the robbers, after plundering the house, intended to kill them all by asphyxiation.

Among the statues taken was one of bronze, 3 feet high, which cost \$200. The police are unable to account for the artistic temperament of the burglars.

# BANKS TO PAY MILLIONS IN TAX.

A decision which compels all the banks, trust companies and other financial institutions in the country to pay millions of dollars in new revenue tax into Uncle Sam's strong-box, has been rendered by Judge Lacombe, of the United States Court, in Brooklyn.

The war tax has been fought by the banks ever since it was authorized by Congress.

Under the law, as it is interpreted by Judge Lacombe, the banks and other financial enterprises are now liable to a lien of \$2 per thousand on all undivided profits. This, of the banks of New York alone, amounts to about \$155,000,000.

The decision was rendered in a test suit brought in behalf of the American Bankers' Association against the Government to recover \$250,000 paid on undivided profits by the Leather Manufacturers Bank.

# STRANGE DEATH IN A HOSPITAL.

Health Board Holds Up Another Certificate  
from the Manhattan State Institution.

Following a rather peculiar certificate, which ascribed the cause of death of Claire Kutz, at the Manhattan State Hospital for the Insane, to "delirious mania," a strict investigation is to be made.

The certificate of death was issued by Dr. W. B. Mosely, of the hospital. It has been rejected by the Board of Health, the Coroner notified, and an investigation is on.

The investigation has so far shown that Claire Kutz, who was thirty-two years old and who had been in the institution several months, had sustained—

A fracture of a rib.  
A broken nose, and  
Other severe injuries.

The investigation has already brought out the information that Claire Kutz "DIED FROM A BED."

This is the second case of a similar nature at the Manhattan Hospital of the Insane within two weeks. It will be recalled that on the former case the cause of death was given as "quick pneumonia." An investigation showed that the breast bone of the young woman had been fractured. The doctors at the institution then gave the explanation that a few days before she died she had jumped from a window sill and fell from a bed post.

The Claire Kutz death certificate was refused because none of the physicians at the Health Department knew just what "delirious mania" it was from which the young woman died, and could not find any such mania described in the books which would cause death naturally. Any way, they wanted more information, and asked the Coroner to investigate.

When the institution was pressed for an explanation the doctors said that the woman did have a broken rib and that her nose was fractured, but they declared that she had fallen out of bed a few days before death.

As this is an apparent repetition the Coroner will make a close investigation.

# CLERK SAYS HE WAS MADE TO MARRY IN LAW OFFICE

Charles Ruggles Tells Remarkable Story in  
Answer to Wife's Suit for Divorce.

An amazing story of enforced marriage was told in Jersey City to-day, when Mrs. Florence Ruggles made application to Vice-Chancellor Pitney for alimony and counsel fees in a suit for divorce from her husband, Charles Ruggles, assistant cashier of the Second National Bank. An award of \$50 counsel fees and \$5 a week alimony was made.

Mrs. Ruggles was Miss Bennett. She lives with her parents at No. 501 Pavonia avenue. Ruggles lives at No. 549 Pavonia avenue. She alleges that he deserted her immediately after their marriage on April 18, 1901.

In his answer to the suit, Ruggles says that on the date mentioned he was summoned to the law office of Craus & Perkins, in Jersey City. Otto Craus and Rudolph Perkins comprise the firm, and they are among the most prominent lawyers and citizens of the town.

At the office, Ruggles says, he found the two members of the firm, Justice of the Peace Crawford, and Miss Bennett. Without any preliminaries he was told that there was a policeman outside the door waiting to arrest him if he did not marry the girl immediately. He protested, he says, but a form of marriage was gone through with, and although he answered "no" to all the questions requiring an affirmative answer, the Justice pronounced them man and wife. He has not seen the woman since, he says, and does not consider her his wife.

Mr. Craus said to-day that the story of Ruggles was to ridiculous to demand denial.

# CONGRESS LIKELY TO END ITS SESSION TO-MORROW.

Resolution Drawn and Will Be Adopted if Business Can Be Finished.

WASHINGTON, June 30.—It is understood that the resolution for the adjournment of Congress has been drawn in authoritative quarters and fixes 3 P. M. to-morrow, July 1, as the hour for final adjournment.

It has not been introduced, but is held for prompt introduction if the present indications of despatching work are realized.

The Naval Appropriation and Philippines bills are the doubtful quantities.

The conferees of the two houses on the Philippine Civil Government bill have practically reached an agreement. They probably will present their report to the Senate during the afternoon. The understanding provides for the elimination of the coinage question from the bill, thus postponing that question to another session for independent action.

The Senate conferees held for for their silver standard provision, and the House men were just in their contention for a gold standard.

The House provision for a territorial legislature is retained in modified form. The Democratic members of the conferees were not present at the forenoon session, but it is not believed that they will make an effort to change the agreement.

# ELKINS ARGUES FOR ANNEXATION.

WASHINGTON, June 30.—Mr. Elkins (W. Va.) addressed the Senate to-day in support of his resolution providing for the annexation by the United States of the island of Cuba.

Mr. Elkins said the resolution did not suggest annexation of Cuba in an offensive way. It provided that the Cubans must take the initiative.

"It is claimed that annexation would destroy the promising and growing sugar industry of the United States," said the Senator. "Not so, however. The price of products among the States of the Union always seeks an equilibrium. While the United States is in favor of the cane sugar of Cuba, which she will enjoy as a State, and the beet sugar of the United States, which she will produce enough sugar for its own consumption, but largely compete with other countries in the markets of the world."

He declared the Teller amendment, by which the United States pledged itself to make Cuba independent was unwise and declared the effect of the Platt amendments, which had incorporated in the Cuban Constitution, would lead inevitably to annexation.

Mr. Elkins, in closing, said: "Our able Secretary of War, who conquers with his sword and frolic intellect, and never had a hot thought, never was swayed by passion in his life, deliberately wrote down these words in his report: 'The peace of Cuba is necessary to the peace of the United States.'"

"Now, who on earth believes that?"

The Elkins Cuban resolution was referred to the Committee on Cuban Affairs.

SHEDDENHEAD BAY RACE TRACK, N. Y., June 30.—The card which not particularly attractive this afternoon and the attendance was the slimmest of the meeting.

It was disappointing to the crowd to find that Mizzen had been withdrawn from the Spring Stakes. There was an excellent field carded and Mizzen would have had a chance to redeem himself in the eyes of the public. The Spring, however, was a good race even with Mizzen out. There were one or two other races that promised good contests.

The track was in superb condition considering the drenching it received yesterday. It was a dusty, but not a hot, day. The weather was cool and pleasant, though threatening rain.

W. G. War, who was ruled off in connection with the Wax Taper affair last year, has been reinstated by the Jockey Club.

BLACK ROCK, Conn., June 30.—Eight little freak yachts competed here in the first of a series of four races for the honor of representing the United States in the match for the Seawanhaka International Cup. The boats are from various parts of the country.

After a conference the officials decided to send the yachts to-day three times over a four-mile triangular course, the first leg being a beat to windward, and the other two legs broad reaches.

The yachts crossed the line in the following order: Nutmeg, Crusader, Seeress, Monsoon, Frontenac, Massasoit, Flibuster, Tecumseh. The wind was blowing about three miles an hour as they began the beat to windward.

The first race was finished at 24. Tecumseh was first, leading the Nutmeg about six minutes as seen from a shore station. Crusader was third, Massasoit fourth, Frontenac fifth.

# Lauder Is Hurt in First Inning and Retires from Game—Bean- eaters Score Four Runs in First Four Innings—New York- ers Go to Sleep at Bat and on Bases.

(Special to The Evening World.)  
POLO GROUNDS, June 30.—Once again did the Giants hold forth on their own camping ground. No hurrahs met their verbal tokens of welcome greeted them as they strode on the field.

They were just like all other losers, friendly, or nearly so. It's an old story, the love New Yorkers have for a good game of baseball, but there being no assurance that such an event would come to pass this afternoon, the greater majority of the sports and enthusiasts stayed away.

New York's army of the "faithful," though, is nearly as big as was Casey's army a few years ago, and it was not as usual, occupying seats in various sections of the stands. They have not lost all faith in the Giants and base their hopes of the team getting out of last place by the plucky fight it put up against the Quakers on Saturday.

That was a great battle, and the rosters argued, "If we see such a contest this afternoon, even though the Giants are beaten, we will be satisfied."

The Boston men, who engaged the Giants in the game this afternoon, have not been having any too much good luck of late and the team was patched up some when it began its game.

**Herman Long Absent.**  
Good old reliable Herman Long, chief director of the men on the field, was an absentee. He was too ill to take part in the contest, and so it was necessary for Manager Al Buckenberger to use an outfielder at short. Courtney was called on to do the work.

It will be a happy day when the Giants' batting order does not look like a piece of crazy patchwork. It has looked that way for a long time, and it was the same old way this afternoon.

# A. D. T. BOY KILLED IN AN ELEVATOR.

Sprang Out After Car Had  
Left Sixteenth Floor and  
Head Was Crushed by  
Framework of Shaft.

Michael Goldman, an A. D. T. messenger, seventeen, was killed in an elevator accident on the sixteenth floor of the American Securities Building, No. 100 Broadway, to-day.

The boy was on his way to the seventeenth floor to deliver a message. At the sixteenth floor, after the elevator man, Harby, had closed the gate and started the car, Goldman, suddenly thinking that he had reached his floor, determined to get off.

He sprang to the gate, opened it and was half way out of the car when his head struck the top of the framework around the shaft. Before the elevator could be stopped the boy was crushed to death.

Hardy grasped the body to keep it from falling down the shaft, pulled it back into the car and made a lugging trip to the ground floor.

There were two other passengers in the car at the time of the accident and their stories agree with that of Harby.
